FOREIGN EXCHANGE SPECIALISTS

For greater value foreign exchange  
We are central to your strategy

## About us

Central FX is a division of Central Markets (London) Ltd, which is a privately owned company based in the City of London, and is Authorised and Regulated by the Financial Services Authority.

Central FX, a division of Central Markets, was created to offer both corporate clients and individuals a foreign currency management service. Based in the financial heart of the City of London, we are positioned to offer our clients both competitive rates of exchange and tailor-made solutions for the management of their foreign currency.

Relationships with our clients are paramount; we offer unrivalled customer service and a pro-active approach to ensure that our clients are avoiding the pitfalls that today's currency markets create. In what are still uncertain times within the economy, the currency markets are volatile and unpredictable. We are here to assist and guide our clients through this to protect bottom lines and negate the risk that still affects many.

Specialists in providing  
cost effective FX

We offer competitive rates of exchange as well as a pro-active management service.

## Business

Every business is affected by foreign currency in different ways. This is why each of our clients is assigned a dedicated currency specialist who will act as your sole point of contact as well as having a personal understanding of your requirements. They will work with you to create and develop a currency strategy that is specifically suited to your needs.

Timing is crucial when it comes to the buying and selling of foreign currency. We keep our clients up to date on the currency markets to ensure that they are kept up-to-date with all relevant economic data. Part of our service is to aid our clients in making informed decisions when buying or selling currency.

We offer consistently better rates of exchange as well as a pro-active management service. Coupled with world class payment processing systems, we provide you with the ability to manage and track your payments simply and cost-effectively, adding value to your bottom line.

## Personal

For individuals who need currency, whether it be for purchasing a property overseas, or settling an invoice in a different country, Central FX offers the same competitive prices that we offer our corporate clients. We work closely with individuals, keeping them up-to-date with all stages of the payment process to give them peace of mind, knowing that the funds will be sent and received quickly and efficiently.

We are opposed to the idea of call centres and automated systems which can often be found with larger institutions. At Central FX relationships with our clients are key. As such we provide an unparalleled bespoke personal service that means our clients have a specialist who understands their requirements and who will be their point of contact throughout the payment process.

## Security

Central FX is a division of Central Markets (London) Limited which is authorised and regulated by the Financial Services Authority.

Central FX is also regulated by HMRC and is fully compliant with all Anti Money Laundering procedures. We operate segregated client transaction accounts through our counterparty banks based in the UK.

World class payment processing systems and the ability to manage and track your payments
